DETAILED ACTION

1. Claims 1 and 4-15 are allowable. The restriction requirement of claims 1 and 4-15, as set forth in the Office action mailed on 11/1/05, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim(s) presented in a continuation or divisional application include all the limitations of a claim that is allowable in the present application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. The following is an examiner's statement of reasons for allowance: Prior art discloses a bushing having a bushing wall defining an interior of the housing, the bushing wall having openings allowing passage of a hydraulic medium to and from the interior, the openings having an opening wall that at least across a portion of the circumference of the opening walls is formed as a opening and several openings are arranged adjacent one another in a circumferential direction of the bushing but fails to teach or fairly suggest the claimed invention that the openings are bevels having a first wall extending substantially radially, a second wall portion opposite the first wall portion, the second wall portion is part of the bevel, the bevels facing one another are positioned at an acute angle to a radial plane of the bushing wall, the radial plane is

positioned centrally between the bevels neighboring one another and the acute angle opens radially inwardly toward the interior.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
